

KFA INTERNSHIP

Opportunity to join as Intern in an International organization

KFA is an international organization dedicated for development of Society through innovation and participation by the members of the community.

It will give you an opportunity to be part of the broader canvas of people and their thinking, planning and execution of developmental projects. It will give you the satisfaction of having experimented with your creativity and acknowledging your strengths while building for a strong and vibrant future.

We are looking for young and dynamic humans with the right mix of aptitude and ethics and fire in belly for a meaningful social career.

- **Graduates in Social Science/Engineering/Science/Arts/Business/Management**
- **Diploma in Information Technology/Computer Science**

Candidate should have visionary and aptitude to learn and explore new things.

Role and Responsibilities

One will get to work in the company of benchmark professionals towards the promotion of community participation, educational pursuits for students, development of entrepreneurship, women emancipation and honing of leadership in several spheres including sports and health.

You will lead the following activities:

- Web Technology
- Identifying areas of potential growth
- Research, survey and data analysis
- Preparing reports and communication
- Events and Functions
- Social Media platforms and campaigns
- Attending community events
